

## **Breaking the Silence: The Lost Words of Helen Keller (tentative name)**

This unprecedented worldwide virtual event will be the first public unveiling of a recorded message by Helen Keller made 90 years ago. Found in a time capsule buried in New York City by the American Foundation of the Blind, the recording includes a presentation by then AFB President M.C. Migel, Editor of the New York Times Dr. John Finley, and Helen Keller and Polly Thompson. Participants in the event will be the first to hear Helen's words since they were spoken in 1934. The event will be co-facilitated by Eric Bridges, CEO of the American Foundation for the Blind, and Dr. Craig Meador, President of the American Printing House for the Blind. The two organizations are partnering to ensure that the legacy and message of Helen Keller continues to positively influence society.
